ABOUT FLEET TRAK... CONTENTS

Fleet Trak Limited has spent a decade building up a reputation for excellent telematic solutions to help fleet managers improve the performance of their fleet and meet ROI targets. We are a Premium Partner for WEBFLEET Solutions and provide connected navigation, and vehicle tracking solutions and are one of the UK's largest suppliers and installers of GPS technology.

Our support staff have more than 35 years combined experience in the vehicle telematics industry. Fleet Trak manage over 14,500 vehicles, spread over 500+ customers, covering a broad array of industries across the country, but our quality of service remains the same with no short cuts taken. We leverage our national network of industry-approved engineers to provide short response times, wherever you are.

WEBFLEET FEATURES

Get the most out of WEBFLEET and realise its full potential - These are just a few of the many beneficial features that WEBFLEET has to offer!

ORDER OPTIMISATION

WEBFLEET introduces order schedules and easy linking of orders to optimally support your desired and established business processes. Schedules of orders allow you to plan the most appropriate sequence of jobs for your drivers' working day based on reasonability and efficiency.

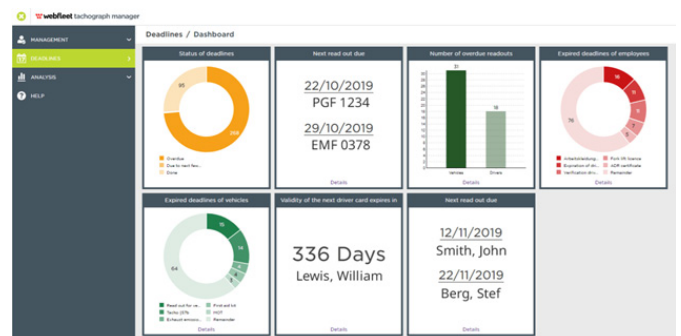

Using order schedules you can reduce the daily mileage of your vehicles, allowing you to easily find the most efficient sequence of orders in terms of distance. You can plan the day in a timely manner, based on knowing the estimated arrival time, job duration and departure time for the individual order locations.

TACHOGRAPH MANAGER*

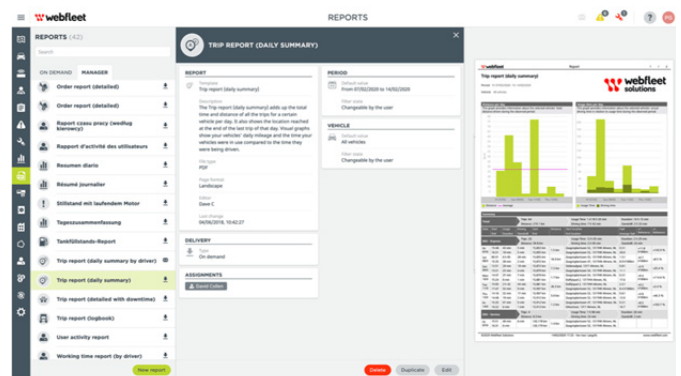

The WEBFLEET Tachograph Manager* is an all-in-one solution which allows you to store and analyse your tachograph data and gives you insight into the driver's activity. You can use this feature to manage drivers, deadlines and social infringements as well as scheduling reminder notifications via email.

REPORTING

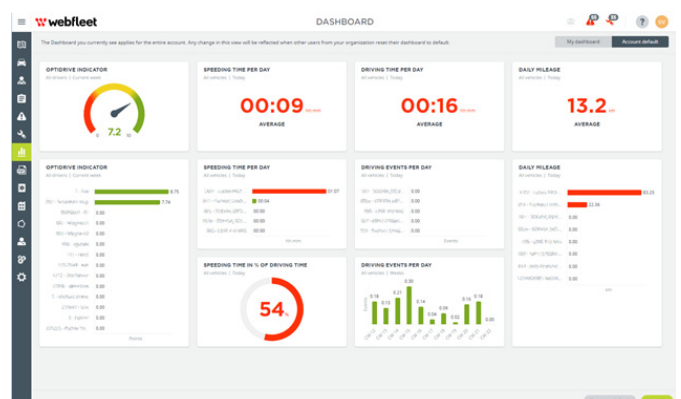

WEBFLEET Solutions provides you with an extensive range of vehicle tracking reports so that you can use information to improve processes, increase efficiency and drive down spend on fuel.

The report manager enables you to create custom reports and edit existing reports. Reports can be downloaded on demand or scheduled to be sent periodically via email address of an existing WEBFLEET user.

DASHBOARD

Using the WEBFLEET Dashboard you can define your business requirements and find information whenever you need it. You can configure the Dashboard and the individual charts showing the performance of your vehicle fleet measured against Key Performance Indicators (KPI) in trend or ranking charts.
